Philippine Airlines, Inc. Goes Live with Ramco Aviation

Digitized operations, optimized resource utilization, and enhanced aircraft traceability drive accelerated growth.

Pasay City, PHILIPPINES / Chennai, INDIA – February 27, 2025 – Global aviation software provider [Ramco Systems](#) announced the successful implementation of its [Aviation Software](#) at [Philippine Airlines](#) for the domestic PAL Express (PALEX) fleet operations. Ramco's on-cloud, next-gen platform has optimized and digitized the operations of the PALEX fleet of A321, A320, and Q400. In alignment with the long-term strategy to optimize operational requirements of both Philippine Airlines (PAL) and PALEX, preparations are underway to roll out the solution for the PAL fleet of A350, A330, B777, and A321.

With modules for Engineering and CAMO, Supply Chain Management, Maintenance Planning, Quality, Component Maintenance, and Hangar Maintenance bundled with Finance, Ramco Aviation Software has enabled PAL to have a scalable and configurable system for growing its business. The solution is a centralized information hub to manage multiple AOCs (Air Operator Certificates) and AMOs (Approved Maintenance Organizations), obtain complete visibility into materials, resources, and tools, and achieve enhanced traceability of aircraft technical records.

In addition, Ramco's digital enablers, like its Ramco Anywhere mobile apps, have enhanced process efficiencies and provided PAL with powerful data-driven insights.

Senior Leadership of PAL Express and Ramco Systems at the Go Live Ceremony in the Philippines

Rabbi Vincent L, Ang, President, PAL Express, said, “The go-live of Ramco Aviation Suite marks a critical step in enhancing our digital infrastructure and operational capabilities. As the airline industry faces increasing demand, Ramco Aviation Suite enables us to improve aircraft availability, automate business processes, reduce costs, and obtain actionable insights. Ramco's solution addresses our immediate needs and supports our plans to accelerate growth and offer greater value to our customers.”

Sam Jacob, Senior Vice President & SBU Head – Aviation, Aerospace and Defense, Ramco Systems, said, “It has been an honor to partner with PAL in their digital transformation journey. We are proud to provide PAL with a cutting-edge solution that aligns with their growth objectives and delivers enhanced performance across their

operations. Our focus on innovation has helped us build a solution that addresses the challenges faced by aviation organizations like PAL and anticipates their future needs. Ramco Aviation Software will continue to support PAL's success by streamlining their business processes and optimizing resource utilization."

[Ramco Aviation Software](#) is trusted by 24,000+ users to manage 4,000+ aircraft globally. With 90+ Aviation organizations onboard, Ramco is the solution of choice for top Airlines, 3rd party MROs, large Heli-Operators, leading Defense organizations, and major Urban Air Mobility companies around the world. Available on cloud, Ramco Aviation Suite provides accessibility with 'Anywhere Apps', significantly accelerating organizational efficiency and agility. Ramco is changing the paradigm of enterprise software with Artificial Intelligence based solutions, intelligent voice enabled user experience, and advanced features such as digital task cards, offline maintenance capability, conversational chatbots, HUBs and cognitive solutions.

About Philippine Airlines, Inc. (PAL):

Philippine Airlines (PAL) is the Philippines' flag carrier, the only full-service network airline, and the first commercial airline in Asia. PAL's fleet of Boeing, Airbus, and De Havilland aircraft operates scheduled nonstop flights out of hubs in Manila, Cebu, Clark, and Davao to 32 destinations in the Philippines and 40 destinations in Asia, Australia/Oceania, the Middle East, Europe, and North America.

About Ramco Systems:
